Refurbishing for Tourism on the Sunshine Coast & Noosa

The work we do supports the Tourism industry by improving the guest experience in the apartments we refurbish. With this in mind—we have recently become members of Sunshine Coast Tourism & Tourism Noosa. This allows us to work more closely with Resort Managers & others in the industry to provide more tailored services—and special offers!

The team at Shoosh are always focussed on local artisans & manufacturers. Our search for local artists who's work complements the style of the apartment and showcases the local environment is exciting and rewarding. We have showcased the works of Beatrice Prost in several of our apartment designs. You can check out her work at www.beatriceprost.com, or check out a new exhibition of her works at Wan'din'in Art Space in Eumundi from Feb 16 to Mar 18.

There's no doubt the addition of a beautiful upholstered headboard adds a touch of luxury to bedrooms for guests. We have been strong advocates of using textured vinyls from Warwick Fabrics to ensure you keep the WOW but don't have any cleaning issues.

It is predicted to be a fantastic year of continued growth for tourism on the Sunshine Coast. There is no better time to work with your owners to get those updates done to bring guests back again and again. We specialise in Holiday Accommodation—with one contact point—one invoice, we manage the whole project.

A Special Offer!

We have been working with various fabric suppliers to create fresh looks in bed runners and cushions. There are so many designs that have been around for years, so we've been talking to all our suppliers to come up with new colourways and fabrics to add some excitement to any bedroom in your complex! See our brochure for details of this offer, or give us a call to look at some of our other samples.

Before & After—Bathroom

Have you been wondering

How we manage noise? We understand how important a quiet environment is to all your other guests, so we work hard to minimise noise while carrying out a renovation. Naturally there will be a couple of days when the noise is more than others, but we will always give you a timetable of these days so your guests are advised prior. We also work with you on start and finish times as much a practical.

Would you believe it's the same place!
