“What would a \$5000 investment achieve in my Apartment?”

One of the questions we have been asked many times, as owners try to break their needs for refurbishment into smaller, manageable chunks that have a logical flow to bringing the apartment up to the desired level. Here's an example of an apartment we've just completed.

UNDER \$5000

Master Bedroom:

Completely update your master bedroom for under \$5000!

New pillow top ensemble with upholstered base, custom upholstered headboard, quality solid timber bedsides with beautiful lamps, stunning art print—fully framed, quality custom block-out curtains, commercial quality coverlet and custom feature cushion. The owners are delighted, and the Resort Managers' were excited to get their next guests in for the holidays.

## Getting “Shooshed”

How do we create a different look for each apartment?

During the first walk-through of an apartment or resort, we look at the location, style of the resort, where it sits in the market, the ideas of the Resort Manager, listen to the feedback they have from guests for that apartment, and naturally the budget constraints from the owner. We consider what can be kept out of existing furniture and fittings. Do they need re-finishing or are they fine as they are? That piece may then be the jumping off point for the apartment. We will look for other pieces that work with what it is we can keep. We don't believe in throwing anything out that can be re-used, repurposed or recycled. Anything we can't use will be offered to our local charities who support the vulnerable in our community.

It usually only takes the selection of that one hero piece to create the whole look—including the colour and textural palette.

Artworks are integral to completing any room. They can bring the whole story together through colour and a sense of harmony with the environment and the apartment overall.

Furniture we source from various suppliers at wholesale prices, as well as custom pieces that are manufactured locally for us. We will scan through all our suppliers stock lists to find the right piece at the right price to offer to our client.

We love what we do, and we love creating that fabulous look for our Resort Managers and owners—and your guests of course!
